	<i>Socialization, Game Reviews, Publishing</i>		3:00		March 3, 2021	Game Review Interest Link	
Game Review Club	Gaming Review Club is a place for students to collaborate and discuss the video games that they are interested in with peers who have the same interests. In a year without typical socialization, it is my hope to provide those interactive opportunities. We are not playing games in this club, but instead focused on sharing out what students enjoy about various games and systems with peers. Students will be grouped with peers based on interests in different gaming systems (Playstation, Xbox, Nintendo, PC, Mobile). This will allow them to meet new peers who share similar interests. Each month we will publish a gaming review from each group on the club website for the school to see.	3/3, 3/17, 3/31, 4/14, 4/28, 5/12, 5/26	Every Other Wednesday	Mr. J. Meaningful Mindfulness	Meaningful Mindfulness will be an exploration of Mindful Practices such as Meditation, Mindful Moments, and Mindful Journal Writing. Each class will begin with a meditation that will highlight positivity and optimism. We will look at different types of journals such as Bullet Journals, List Journals, and Theme Journals. We will look at several youtube videos that explore different types and methods of journaling. Students will select a type of Journal they would like to create. Students will be encouraged to write in their journals on a daily or bi-weekly basis. The meditation and journals will help students carve out Mindful Moments in their daily lives. Students will also be encouraged to create artwork that inspires Calmness. Students will create art spirals with colored pencils to create visual images that evoke positivity. We will create a slide show for CTV with positive quotes on calmness and mindfulness that will inspire others to calm and mindful. Art Club	Art club is offered in a remote learning environment where young artists will explore artistic opportunities that they do not usually receive inside the classroom. The elements and principles of design will be reviewed as students create artwork that expresses emotion, develops problem solving skills, and shows aesthetics. Students will receive instructions for each lesson and use club and personal time to complete the project. This club will also be assisting the school musical with digital creations for the virtual musical backdrop.	March 10 & 24, April 14 & 28, May 12 & 26, June 9	2nd & 4th Wednesday 3:00-3:30	Ms. S.
